THE ICEMAN WARMS UP TO THE GOOD JUDGE

TUST because you want tobacco satisfaction is no reason why you need to put a big wad in your cheek, and then have to grind on it. A small chew of "Right-Cut" satisfies you. It's the Real Tobacco Chew. The glad news spreads from friend to friend.

Very likely you yourself have already started several of your friends on "Right-Cut."

Take a very small chew-less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away.
Then let it rest. See how easily and evenly the real tobacco tuste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end. It is a ready chew, out fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candled tobscoomakes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses rice. Notice how the salt brings out the rich tobacco taste in "Right-Cut." One small chew takes the place of two big chews of the old kind.
